Conclusion/Brief comment:

Policy RH6 of the Rural Area Plan indicates that extensions or alterations to existing houses will normally be permitted, subject, in specific circumstances, to satisfying the provisions of other policies. In addition, the supporting text to this policy refers to the need to consider the material planning considerations as specified in Section 13 of the Land Planning and Development (General Provisions) Ordinance 2007. These include the appropriateness of the development in relation to its surroundings in terms of its design, layout, scale, siting and the materials to be used, as well as its likely effect on the character and amenity of the locality in question and the amenity of neighbouring properties.

The 1898 map shows a building of similar footprint in the location of the building which forms the subject of this application, however, even if that building has been retained, it appears to have undergone substantial alteration. The alteration of the windows and doors as proposed would not have any significant impact on the appearance of the building or the character and amenity of the area.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
