Conclusion/Brief comment:

The application seeks retrospective planning permission to install a rooflight in the south facing roofslope.

The velux has been designed appropriately and positioned to be in-keeping with the host dwelling and the character and appearance of the surrounding area.

To the south, the property faces towards a highway and a grassed area that forms part of the estate. The velux roof light does not have any significant impact on the residential amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

For the above reasons it is considered that the proposal accords with the above mentioned Policies of the Island Development Plan.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
