OFFICER'S REPORT

Brief Description of the site:

The property known as 'Anjo' is a pre-1900 semi-detached granite two storey house, which is set back from and faces southeast onto Grande Rue. The house forms the corner and the southwest gable is adjacent to Le Petit Marais. To the northwest is a rear garden and detached garage, with a neighbour beyond and to the northeast is the adjoining house. Both houses are Protected Buildings. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to replace the flat roof on the 1970's rear extension and to replace and resize the three roof lights. Although the main part of the building is a Protected Building, the 1970's extension is not protected.

Re-roofing the flat roof would on its own not needed planning permission had the house not been protected, and as the 1970's extension is not part of the protection the proposal to re-roof is deemed acceptable.

Of the three roof lights, two are to remain the same size one 900 x 900mm, and the other a smaller unit. The largest existing roof light is to be reduced to 900x 900mm. The style of roof light is to replicate the existing roof lights and so there will be very little change.

Therefore the proposals are not considered to alter the special quality of the protected building, change the character of the area nor will they have any detrimental effects on the neighbours' amenity.

There has been sufficient information provided with the application to comply with the requirements of policy GP9 regarding Sustainable Development.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
