Conclusion/Brief comment:

Initially this application was to remove both the front and rear hedges and replace with 1.5m fences. Concerns were raised with the applicant about the proposed 1.5m fence at the front of the property because the fence would become a solid barrier which would be detrimental to the character of the area.

An amended block plan was submitted which removes both the front and rear hedges, but only replaces the rear hedge with a fence.

Removing the hedge to the rear of the property is not considered to be detrimental to the character of the area, and replacing the hedge with a fence in this location would be exempt because the fence is only to be 1.5m.

Removing the hedge at the front of the property would alter the character of the area, however the area is characterised by a mix of walls and hedging along the roadside boundaries and the impact on the character of the area would not be significant.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
