OFFICER'S REPORT

Brief Description of the site:

The application site known as 'Shamba' is located Outside of the Centres as defined in the Island Development Plan. The property forms the corner between Grande Rue and King's Road. An existing outbuilding/large shed is located towards the north-east corner of the site.

Planning permission is sought to erect an outbuilding to the rear of the property, adjacent to the west boundary.

Policies considered most relevant:

GP9: Sustainable Development
GP13: Householder development

Conclusion/Brief comment:

Policy GP13 (Householder Development) states that proposals for the alteration and/or extension of residential properties within the residential curtilage, will be supported where there are no significant adverse effects on the amenities of neighbouring properties; the design, scale, mass and form would not detract from the open character of open locations; and they do not affect the special interest of Conservation Area, Area of Biodiversity Importance, protected building or protected monument.

In this instance Policy GP8 (Design) is also relevant. In addition, the preceding text to this policy refers to the need to consider the material planning considerations as specified in Part IV, Section 13 of the Land Planning and Development (General Provisions) Ordinance 2007. These include the appropriateness of the development in relation to its surroundings in terms of its design, layout, scale, siting and the materials to be used, as well as its likely effect on the character and amenity of the locality in question and its likely effect on the reasonable enjoyment of neighbouring properties.

The proposed outbuilding achieves a good standard of design (Policy GP8 – Design) in terms of its scale, mass, form, siting and materials. Whilst the outbuilding is likely to be glimpsed in public views from Grande Rue, the proposal is not considered to adversely affect visual amenity due to being set back from the roadside. The proposal is also considered to respect the character of the area.

Whilst the outbuilding will be located near the west boundary of the property, the design, height and orientation of the outbuilding is not considered to adversely affect the amenities of neighbouring residents.

The application is compliant with Policy GP8 and GP13.

Due to the nature, scale and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
