Conclusion/Brief comment:

This application is to demolish the existing toilet block and separate canteen and to erect a single storey flat roof extension to the east side of the existing spectator stand, housing new toilet facilities and a new canteen.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the users more up to date facilities and more practical kitchen space.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on any of the immediate neighbours.

Policy GP9 Sustainable Development seeks to ensure all new development takes into account the use of energy and resources and any adverse impacts on the environment. There has been sufficient information provided with the application to comply with the requirements of this policy.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
