Conclusion/Brief comment:

This application is to remove and replace a large section of hedge to front boundary and remove another section of hedge to the east to create additional parking at the front of the property.

The whole of the hedge (27m) is over 20 years old and large parts of it are diseased and dying, with certain parts already dead. The proposals seek to replant 20.5m along the boundary with the neighbouring property and along the front boundary. The 6.5m length between the existing front lawn and existing parking area is to be removed permanently and part of the front lawn is to be repaved as additional parking for the dwelling. (It is noted that the paving is exempt development and will not be assessed as part of this application.)

Due to the condition of the existing hedge it is accepted that it requires removal. Replanting over two thirds of the hedge does not need permission, but is commended. Removing the section of hedge within the domestic curtilage is considered appropriate.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
