Conclusion/Brief comment:

This application is to remove approximately 2m of earthbank to widen the shared vehicular access to 6.5m and to remove a section of hedging to create an additional parking area at the front of the property.

The section of hedge to be removed is the 7.5m section which returns from the front boundary up to the front of the dwelling. This section of hedge although in good condition is not thought to greatly enhance the character of the area. The remaining (approx. 18m) roadside boundary hedge retains the appearance and character of the surrounding area.

The small amount of earthbank to be removed is not considered to be so important to the character of the surrounding area that it warrants retention and therefore it is considered acceptable for it to be removed.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
