## OFFICER'S REPORT

### Brief Description of the site:

The application site comprises a detached bungalow located to the south of Hougue Du Moulin. The site is located in a Conservation Area as defined in the Island Development Plan.

Planning permission was granted in 2020 to erect a single storey extension and terrace to the rear of the dwelling, demolish a chimney, alter the fenestration, apply external insulation and install roof-lights to the south (rear) elevation.

Permission is now sought to vary that permission by reducing the size of the full length window on the east elevation of the extension and installing clear glass.

**Conclusion/Brief comment:**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Whilst some concerns regarding overlooking still exist, the application is not considered to result in a significant detrimental effect on the amenities of neighbouring residents when taking into account the reduced size of the proposed window together with the distance to the neighbouring property to the east. Furthermore, mature landscaping exists along the east boundary of the application site and an existing level of overlooking and inter-visibility currently exists between both properties. On this basis, the degree of harm caused is not sufficient, in light of the amendments secured, to warrant refusal.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
