OFFICER'S REPORT

The property known as 'Chung Uk' is a 1970's detached two storey dwelling which sits in the middle of a clos corner plot, the access road runs along the south and west boundaries. The closest neighbour is to the east and the other clos neighbours are across the access road to the south, west and northwest, to the northeast is the large garden of a detached dwelling (not part of the clos). Conclusion/Brief comment:

This application is to demolish the existing rear conservatory and replace with a single storey flat roof rear extension spanning the width of the property. Erect a first floor extension to the west elevation above the existing flat roof addition and install a rooflight over the new entrance, which is to be formed from the existing garage.

At present the front facade of the dwelling faces southwest and it is not a balanced house, however, the proposed first floor extension over the existing single storey flat roofed room, will bring symmetry to the front façade. The proposed windows from the new bedroom will face the access road to the southwest and the rear garden to the northeast. There is a high wall and an abundance of mature planting between

the property and neighbour to the northeast, the potential for overlooking is extremely low.

The rear single storey flat roof extension is not considered to effect the character of the area, nor will it have any impacts on neighbour amenity. Neither would the rooflight to be inserted to the front elevation above the existing garage/proposed entrance hall.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extensions will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

Policy GP9 Sustainable Development seeks to ensure all new development takes into account the use of energy and resources and any adverse impacts on the environment. There has been sufficient information provided with the application to comply with the requirements of this policy.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
