Policies considered most relevant:

GP9 Sustainable Development

Conclusion/Brief comment:

Policy OC3 states that the change of use or redevelopment of existing industrial, storage and distribution or office uses to an alternative use will be supported where the proposals accord with all other relevant policies of the Island Development Plan.

The change of use away from storage and distribution to Sui Generis is acceptable under policy and would be an appropriate use given its close proximity to the airport and parking provision on site.

The design of the canopy will be positioned in line with the façade of the building and adopts a good standard of design for the purposes of Policy GP8. Whilst it is proposed to use the canopy for the washing of hire cars and will be in close proximity to the neighbouring building to the east, the resultant effect on the amenities of neighbouring business is unlikely to be significant to warrant refusal.

The directional signage to the front of the building as shown on drawing 298-10 REV P2 achieves a good standard of design in terms of its size, layout and appearance and will be setback from the main road Le Bourg.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
