Conclusion/Brief comment:

This application is to demolish one of the chimneys, erect single storey extension with raised terrace to the lower ground level and extend the existing terrace at ground floor level over the extension to the east (rear) elevation and some alterations to fenestration.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight to the lower ground floor flat, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding conservation area as it is to the rear of the property and cannot be seen from public views.

To protect the neighbours from any possible overlooking the extended ground floor terrace will have 1.8m opaque glazed privacy screen either side, along the north and south balustrades. Therefore, the proposals are not considered to impact on the amenity of either of the neighbours to each side.

Although the upper terrace will be enlarged and views from which will be closer to the rear of the neighbouring property to the east (Mont Havelet Cottage) this property is situated at a much lower level and given the existing boundary screening that exists at the site together with the extent of overlooking already present, views are oblique and any additional loss of privacy as a result of the proposal would not be so substantial to warrant the refusal of planning permission.

Policy GP9 Sustainable Development seeks to ensure all new development takes into account the use of energy and resources and any adverse impacts on the environment. There has been sufficient information provided with the application to comply with the requirements of this policy.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
