OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested for variations to works previously approved to extend and convert the outbuilding to form a dwelling (FULL/2018/1423). The variations involve increasing the ridge height by 0.7m by increasing the pitch of the roof, replace dormer windows and rooflight on east roof slope with a smaller zinc clad flat roof dormer window and 2 rooflights, alter size of first floor gable windows in north and south elevations and replace roof covering with slate.

The application site consists of a pitched roof building which was approved for use as a builder's store/workshop in December 2009 (FULL/2009/3470). The building is finished with timber cladding and a pan-tile roof. There is a track to the east of the building which provides access to the adjoining agricultural field to the north. The site is situated to the north of Les Mares Pellees road and is in a Main Centre Outer Area.

Conclusion/Brief comment:

The revised scheme including the increase to the pitch of the roof and the alterations to the dormer windows and rooflights to the east roof slope result in a better quality of design. The revised proposal achieves a satisfactory standard of design, in accordance with Policy GP8.

The alterations to the dormer windows and rooflights to the east roof slope would reduce the potential impact on the amenities of neighbouring residents. The revised proposal would have no material adverse effects on the amenities of neighbouring residents.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
