Consultation:

La Societe Guerneslaise - Set out that in respect of this application, we would like to highlight that all types of hedges support nesting birds and other wildlife and request that the removal of the hedge be undertaken outside of the main bird breeding season (March-July inclusive). If removal during the bird breeding season is considered essential, then it is recommended that the hedge is inspected for current or recent use by birds (and other wildlife) by a suitably qualified person prior to removal. This would reduce the risk of disturbing or destroying animals which are protected under the Animal Welfare Ordinance 2012. An Informative Note is recommended should planning permission be granted.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
