OFFICER'S REPORT

Brief Description of the site:

The application site is a protected building located to the east of Ruettes Brayes. The property lies in a Conservation Area and Main Centre Outer Area as defined in the Island Development Plan.

Planning permission is sought to demolish an existing wall and erect new roadside wall in order to alter the vehicular access and parking area. The vehicular access of the property is near a bend in the road which limits visibility splays.

The application was deferred as some concerns were raised with regards to the height of the roadside wall extension which would have limited sightlines towards traffic on the opposite side of the road, travelling in an east – west direction.

The application has been amended and the wall height reduced in order to seek to address the concerns raised.
