OFFICER'S REPORT

Brief Description of the site:

The site known as 'Ladies College' is a large site housing a protected building (infant and junior school) and separate building (pre-school), located in the south end of the site. A modern senior school is located towards the north of the site and various playgrounds and sports fields in and around the buildings. The site is surrounded by residential dwellings and is located in the St Peter Port Main Centre Outer Area and within a Conservation Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to erect a canopy to the west end of the south elevation of the main protected building, creating a sheltered area between the additional part of the main building and the pre-school building to the southwest.

The main 18th century building and the single storey wings on either side are the protected parts of the building. The small mid-20th century pre-school building is not protected. The canopy is to span the area between the two buildings.

The canopy has been carefully designed to only have a minimum of fixings into both buildings and the columns are limited so as not to disturb the tree roots of the nearby tree.

The proposed canopy would be affixed to a lower value part of the protected building and is not considered to have any adverse effects on the overall special interest of the protected building, the proposals therefore comply with Policy GP5.

Although the proposed canopy is located on the south (front) façade of the building, the mature planting and high front roadside boundary wall restricts views from public vantage points and therefore the special character of the surrounding Conservation Area will not be affected. The scheme therefore complies with Policy GP4.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
