OFFICER'S REPORT

Brief Description of the site:

The property known as 'Le Pavillion' is a relatively modern dwelling built in the 1980's, it is a one and a half storey detached building with attached garage. It is set back from and faces east onto Longue Rue. There are residential properties to the north and south and a pedestrian lane and douit to the west.

The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to install a number of solar panels to several roof slopes on the property.

There will be 43 panel modules installed in 10 areas of the roof of this multi pitched dwelling.

The position of this building, both angle of roof planes and distance (in relation to La Ruelle, the protected building situated across the road to the east), is such that no adverse effect on the overall setting of the protected building would result from insertion of the proposed solar panels, therefore the proposals are considered to comply with policy GP5.

From the site visit it is apparent that this is a very private house with a high granite boundary wall to the east with mature planting behind, which is the same along the western boundary. The views to the house are very limited and the solar panels will not be easily seen from public vantage points. The design of the solar panel arrays is not considered to impact on neighbour amenity and should be encouraged to accord with GP9.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
