Conclusion/Brief comment:

This application is to erect a shed to east boundary and a pergola to south-west boundary.

The roadside boundary wall with the road runs from the east round to the south and is a high rendered wall, higher in the east because the road runs downhill away from the site. The neighbours shed is only just visible from public vantage points.

The proposed shed will be in line with the neighbouring shed in the adjacent garden to the north (the ground floor flat garden). It will also be screened by the high wall, and therefore unlikely to impact upon the character of the area.

The pergola will be in the southwest corner of the garden which is forward of the building line, but the boundary wall is still high and only the top of the pergola will be seen. The pergola is not considered to impact on the character of the area, nor will either of the proposals have any detrimental impacts upon any neighbour amenity. Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
