IP7 Private and communal parking

Conclusion/Brief comment:

As set out in Policy MC8 proposals to extend and alter existing visitor accommodation establishments in Main Centre Outer Areas will be supported where they accord with all the relevant policies of the Island Development Plan.

The proposed extension and alterations will add a contemporary appearance to the building and is acceptable in terms of its scale, mass, form, siting and detailing. Whilst visible in the surrounding area, the addition and alterations proposed are not considered to adversely affect visual amenity or the character and appearance of the Conservation Area.

Whilst the proposed extension to the north-west elevation of the building is likely to result in a net loss of one car parking space, the loss of such provision when taking into account the size of the car park is acceptable.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
