Conclusion/Brief comment:

This application is to remove the container, located in the south east corner of the site, and install 16 bicycle stands in its place and to install a petanque terrain to the west side of the club house.

The removal of the container will help to enhance the character of the area, and the bike stands are to encourage the sports ground users to be more sustainable, both of which are aims of the IDP.

The sports ground has sufficient parking remaining to allow for the petanque terrain, which would be constructed over the existing tarmac, to be sited close to the club house.

The petanque terrain will be proportionate to the scale and nature of the sports field and club house, there will be no visual impacts and it is contained entirely on the existing hard standing parking area associated with the sports ground.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
