Conclusion/Brief comment:

A proportionate Historic Statement has been submitted which sets out the agent's assessment of the effect on overall special interest. The Planning Service broadly agrees with the agent's assessment that the effect on the overall special interest of the protected building would be slight. The alterations would largely affect modern insertions and would not impact adversely upon any elements of the interior which contribute to its outstanding architectural interest. Where historic ceilings/floors would be affected only a small proportion of the overall would be changed. Provided that the existing pantry door is re-used in the new position, the proposal would accord with Policy GP5.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
