OFFICER'S REPORT

Site Description:

The application site known as 'Meadow View' comprises a detached 1.5 storey dwelling-house located in a small clos to the west of Le Gele Road, Castel. The property is located Outside of the Centres as defined in the Island Development Plan. The land to the north of the site comprises a Site of Special Significance.

Relevant History:

None pertinent to this application.

Existing Use(s):

Residential

Brief Description of Development:

Retrospective planning permission is sought to erect a (10ft x 8ft) summerhouse (outbuilding) to the south-east boundary.

Relevant Policies of any Plan, Subject Plan or Local Planning Brief:

GP8 Design
GP13 Householder Development

Representations:

The Authority has received a letter of representation from one party objecting to the proposal. Grounds for objection principally relate to the following issues:-

- Close proximity and height of the outbuilding to a neighbouring property.
- Impact on private views.

Consultations:

None.

Summary of Issues:

- Whether the design, scale, mass, siting, form and materials of the development is acceptable.
- The impact of the development on the character and appearance of the area.
- The impact of the development on neighbour amenity.

Assessment against:

- 1 - Purposes of the law.**
- 2 - Relevant policies of any Plan, Subject Plan or Local Planning Brief.**
- 3 - General material considerations set out in the General Provisions Ordinance.**
- 4 - Additional considerations (for protected trees, monuments, buildings and/or SSS's).**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Policy GP13 (Householder Development) states that proposals for the alteration and/or extension of residential properties within the residential curtilage, will be supported where there are no significant adverse effects on the amenities of neighbouring properties; the design, scale, mass and form would not detract from the open character of open locations; and they do not affect the special interest of Conservation Area, Area of Biodiversity Importance, protected building or protected monument. In this instance Policy GP8 (Design) is also relevant.

When taking into account the position, scale, mass, form and materials of the existing outbuilding, the proposal is not considered to have a detrimental effect on the character of the area and visual amenity.

The impact on the amenities of neighbouring residents is considered to be negligible when taking into account the orientation of the outbuilding, together with its scale and form which marginally projects above the south boundary fence. Consequently, the proposal will not lead to any adverse effect in terms of overlooking, overshadowing or overbearingness to warrant refusal.

Whilst a neighbouring resident has expressed concerns regarding the impact of the development on private views as set out in the letter of representation, this issue does not comprise a material planning consideration that can be considered as part of determination of this planning application.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
