### Conclusion/Brief comment:

This application is to install an external insulating render system to the north, east, west and half of the south elevations and to erect a 1.8m fence from the face of the outbuilding, dropping to 1.5m fence forward of the main dwelling. It is noted that the Labelled Plan submitted refers to the east boundary however this is the west boundary of the application site.

Initially the application was for a 1.8m fence along the whole of the west boundary, but after a site visit and discussion with the homeowner the fence forward of the building line has been reduced to 1.5m.

The insulating exterior render is considered a reasonable aspiration of the homeowner and complies with policy.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Grant with Conditions
