OFFICER'S REPORT

Brief Description of the site:

The application site is located in a Main Centre Outer Area as defined in the Island Development Plan. The property has recently been constructed as part of a housing development site.

Planning permission is sought to remove a 2.5m section of a newly planted hedge in order to increase parking provision to the front of the property. Permeable paving is to be included, together with a new section of hedge to the west of the extended area of paving.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Despite being in the Main Centres, the maximum car parking standards do not apply to existing dwellings, therefore there are no policy objections to increasing parking provision on site.

The loss of a section of hedging to the front of the property is regrettable as it positively contributes to the character and appearance of the small clos. Although, the degree of harm caused would not be so substantial to warrant grounds for refusal, especially as a section of hedging will remain to the front of the property which provides sufficient demarcation and an acceptable boundary treatment. The total width of the access (approx. 5.9m) is also acceptable when 'read' in context with other vehicular accesses on the clos.

Consequently, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
