Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

Policy GP13 (Householder Development) states that proposals for the alteration and/or extension of residential properties within the residential curtilage, will be supported where there are no significant adverse effects on the amenities of neighbouring properties; the design, scale, mass and form would not detract from the open character of open locations; and they do not affect the special interest of

Conservation Area, Area of Biodiversity Importance, protected building or protected monument. In this instance Policy GP8 (Design) is also relevant.

Whilst the proposed 5ft high fence will be highly visible in views within the estate due to its position, the fence is located to the rear of the property and would be sited adjacent to an existing fence of a similar height and appearance.

Overall, the proposal is considered to be a reasonable aspiration of the property owner to provide privacy to their rear amenity space, without having an unacceptable adverse effect on the character or appearance of the locality.

The proposal is not considered to have a detrimental effect on the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
