OFFICER'S REPORT

Brief Description of the site:

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposed extension adopts a good standard of design by virtue of its scale, form, massing, siting and materials. The relationship and proportionality to the original dwelling is acceptable under Policy. Due to its position and design, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents. All other works as set out in the description above are supported under the general presumption in favour of householder development (Policy GP13).

The proposed access adopts an acceptable standard of design and will not lead to any serious concerns with regards to highway safety or traffic management given the anticipated visibility splays and low traffic speeds and volumes along Rue Du Douit Du Moulin.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
