Conclusion/Brief comment:

The whole of the building is protected together with the exterior steps. It is within the St Pierre du Bois Church Conservation Area.

A Statement of Significance and Statement of Need have been provided, the latter explains that the larger kitchen is required to cater for church and community functions and to enable improved hygiene in food production. This position, where modern alterations have already been made, was chosen for the least impact on special interest.

The alterations relate to lower value areas of the building and no objections are raised, subject to the addition of conditions relating to large scale drawings of the windows and doors and details of the extractor vent.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
