GP5: Protected Building
GP8: Design
GP9: Sustainable Development
IP9: Highway Safety, Accessibility and Capacity

Conclusion/Brief comment:

The proposal is minor and would not prejudice the outcome of a Development Brief for the Harbour Action Area and its implementation.

Policy MC6 states that proposals to extend, alter or redevelop existing retail premises will be supported providing they accord with all other relevant policies of the Island Development Plan.

The Authority has a duty under Section 38 of The Land Planning and Development (Guernsey) Law, 2005 to pay *“special attention to the desirability of preserving and enhancing the character and appearance”* of Conservation Areas. This duty is encapsulated in Policy GP4: Conservation Areas of the IDP which states that *“proposals for development within a conservation Area will be supported where the development conserves and, where possible, enhances the special character, architectural or historic interest and appearance of the particular Conservation Area.”*

The proposed changes are considered to be acceptable and are in-keeping with the character and appearance of the surrounding Conservation Area.

The setting of the adjacent protected buildings would not be affected.

The proposals do not harm the amenity of any nearby residential properties, or cause a detriment to pedestrian or highway safety.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

In view of the above, it is recommended that planning permission is granted for the proposed development.
