

THE LAND PLANNING AND DEVELOPMENT (GUERNSEY) LAW, 2005
AND THE LAND PLANNING AND DEVELOPMENT (GENERAL PROVISIONS)
ORDINANCE, 2007

NOTIFICATION OF GRANT OF PLANNING PERMISSION

PROPOSALS: Install garden room to south boundary.

LOCATION: Windward, Water Lanes, St. Peter Port.

APPLICANT: Mr & Mrs S Kairsingh

This permission is granted under the terms of Sections 15 and 16 of the Land Planning and Development (Guernsey) Law, 2005 (the 'Law').

Date of Grant of Permission: 09/03/2022

This notification of grant of permission refers solely to the proposals referred to above as described in your application received as valid on 26/11/2021 and the drawings referred to below. This grant of permission is subject to the following conditions:-

Drawing Nos: SOUP 410_ 200, 300 & 310.

Application Ref: FULL/2021/2438

Property Ref: A21094A002

Conditions and reasons:-

1.All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

Reason - To ensure that it is clear that permission is only granted for the development to which the application relates.

2.The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect

unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3.The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

Reason - Any planning permission granted under the Law is subject to this condition as stated in section 17(2) of the Land Planning and Development (Guernsey) Law, 2005.

4.Notwithstanding the information contained in the application drawings, this permission does not relate to the installation of an air source heat pump as shown, as agreed by the planning agent in an email dated 07/03/2022.

Reason - Based on the submitted information, the proposed air source heat pump would result in noise and nuisance to the occupiers of surrounding dwellings and has therefore been omitted to enable the garden room development to proceed and for further information to be prepared in connection with a separate application for an air source heat pump.

Expiry Date: This permission will cease to have effect on 08/03/2025 unless development is commenced by that date.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

RECOMMENDATION - Grant: Planning Permission with Conditions:

1. All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

2. The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3. The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached dwelling-house which is located north of the Water Lanes. The property is located in the Main Centre Outer Area as defined in the Island Development Plan.

Planning permission is sought to install a garden room to the south boundary. As originally submitted the scheme also related to the installation of an air source heat pump (ASHP) to the north boundary however this was omitted from the scheme due to concerns raised by the Office of Environmental Health and Pollution Regulation.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposal adopts a good standard of design by virtue of its scale, form, massing, siting and materials. Due to its close proximity to the main dwelling together with its design and relationship to the surrounding area, the garden room is unlikely to have any detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
