Conclusion/Brief comment:

This application is to erect a one and a half storey extension to the north side elevation to house ensuite bathrooms for two ground floor bedrooms and the master bedroom at first floor level. The scheme also relates to the removal of a chimney stack, erection of a one and a half storey front porch to the east elevation, alterations to the roof over the existing garage, from a flat to a pitched roof, to create a vaulted ceiling to the kitchen and to install two dormers to the west roof slope for two bedrooms.

Policy GP8 expects proposals to achieve a high standard of design which respects and where possible enhances the character of the environment. GP13 supports development where there are no significant adverse effects on the amenities of neighbouring properties. Both policies provide for a high degree of personal choice on design matters in less sensitive areas (outside of Conservation Areas and not affecting the setting of protected buildings).

The proposals achieve a high standard of design, using materials which complement the existing materials. The extensions will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation, creating a 5 bed dwelling.

The scale and massing of the new extensions are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impacts on any of the immediate neighbours as there is a significant distance between them.

La Societe Guerneslaise has requested an informative be added to the decision regarding the possibility of bats roosting in the roof.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
