OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested to erect a 1½ storey pitched roof extension with a flat roof link at first floor level to the rear (south-east) elevation. The extension is proposed to be finished with timber cladding and a natural slate roof. The alterations to the door on the front (north-west) elevation would constitute exempt development.

The site consists of a 1½ storey detached dwelling orientated gable end to Rue Des Issues to the north-west. The site is located within the Airport Consultation Zone, an Agriculture Priority Area and is Outside of the Centres.

GP13: Householder development

Conclusion/Brief comment:

The scale and pitched roof design of the extension respects the design of the existing dwelling. The proposed materials contrast with but complement the existing dwelling. The flat roof link has the potential to be visible from the public highway but

the site is not within a Conservation Area and the flat roof link would not cause sufficient harm to the appearance of the dwelling and the character and amenity of the locality to outweigh the support and flexibility for extensions and alterations to existing residential buildings as set out in Policy GP13. In addition, planting along the boundary would partially screen the extension and flat roof link from the public highway. As a result, the extension achieves a satisfactory standard of design and the proposal does not conflict with Policies GP8 and GP13.

By virtue of the distance to neighbouring residential properties the extension would have no adverse effects on the amenities of neighbouring residents.

Information has been submitted to demonstrate that the design has taken into account the use of energy and resources, in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
