OFFICER'S REPORT

1 letter of objection received, concerns raised summarised as follows:

Policies considered most relevant:

GP8 – Design

GP9 – Sustainable Development

GP13 – Householder Development

Conclusion/Brief comment:

Policy GP13 is generally supportive of proposals for householder development such as this.

The proposed building would have a shallow, mono-pitch roof, windows and doors in its north and west elevations (facing towards the applicant's house and into the rear garden respectively), and would be positioned in the south-east corner of the rear garden adjacent to established boundary hedge and tree planting. In and of itself the building's scale and design is considered acceptable in the context of policies GP8 and GP13.

Given the building's position on the site, established boundary features, and the orientation of windows and doors, it is not considered that the building would have any significant or unacceptably adverse impact on the character of the locality or the amenity of neighbouring properties.

Sufficient information has been submitted to demonstrate compliance with the requirements of Policy GP9.

Any future use of the building otherwise than on an incidental and ancillary basis in connection with the residential use of the property, for example as a commercial workshop, would require planning permission in its own right.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
