OFFICER'S REPORT

Brief Description of the site:

The property known as '15 Rue Flere' is a two storey early 20th century semi-detached dwelling which is slightly set back from and faces south onto Rue Flere. The attached semi is to the east and the road is lined with identical semi-detached properties to the east and south. To the west and north of the property is a reservoir. The property is located within the St Sampson Main Centre Outer Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to remove a section of hedge to create an off street parking area for one car and to erect a low wall and chain link fence.

Of the 10 sets of semi-detached buildings, 20 dwellings, this is the only one on the street not to have an off street parking bay. On street parking is allowed between the houses and as the other semi already has a parking bay the proposed parking bay would not remove an on street parking position, but would slightly decrease the on street parking area to the west.

As there are off street parking bays along the whole road, the addition of one more will not impact on the highway or effect the character of the area.

In this instance, the minimum sized parking bay is considered appropriate and acceptable.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
