(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

OFFICER'S REPORT

Brief Description of the site:

The property known as 'Vauxbelets Cottage' is a one and a half storey pre 1900's granite faced dwelling set far back from the road at a higher ground level. The house faces north onto Route de St Andre (Le Bouillon Road). The existing kiosk building was built in the 1970's close to the vehicular entrance. To the east, west and south are open agricultural fields and across the road to the north is Blanchelande College. The property is located Outside of the Centres and within the Agriculture Priority Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is for the demolition of the kiosk outbuilding and the construction of a timber single storey garage/store outbuilding to the north of the site, adjacent to the existing parking area.

The kiosk was built in the 1970's and is not of any architectural merit, therefore its removal is considered acceptable. The Guernésiaise Société wrote in to highlight the possibility of bats using the kiosk for shelter, and an informative will be added to the decision to ensure the applicant is aware.

The single storey pitched roof garage/store outbuilding will house one car and a storage area. The structure will be located at the front of the property, but nestled behind plenty of mature planting which grows along the roadside boundary. The location of the outbuilding does not impact on the views of the property due to the ground levels, the parking area and new outbuilding will be screened by the front boundary wall and will not be viewed from many public vantage points.

The scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impacts on any of the neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
