Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposal adopts a good standard of design by virtue of its scale, form, massing, siting and materials that relates well to the remainder of the property. The proposal is not considered to have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents to rebut the general support in favour of householder development (Policy GP13).

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
