Conclusion/Brief comment:

This application is to erect a 1.2m x 4.2m x 1.7m bespoke store to be located against the west boundary wall at the front of the property. The store will be made of timber with ship lap cladding and a Grey EPDM rubber roof covering.

Initially the proposal was to attach the store to the front façade of the dwelling, which was not considered ideal. The store has since been pulled away from the front façade by 1.2m, it is still against the west boundary granite wall, which is a height of 1.8m.

The timber store is not thought to impact on the special interest of the protected building, nor will it alter the character or appearance of the surrounding area. The store will not impact on neighbour amenity and is therefore considered to comply with policy and the application is recommended for an approval.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
