Conclusion/Brief comment:

The development is two houses with access off Les Mares Pellees to the north and La Route du Braye running along the south boundary. Unit 2 is to the east and Unit 1 to the west.

The proposals relate to unit 2 and achieve a good standard of design, using materials which complement the existing materials. The flat roof extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, the setting of the nearby protected buildings, nor will it have any detrimental impacts on any of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
