OFFICER'S REPORT

Brief Description of the development:

Demolition of existing conservatory and gazebo, erection of single storey extension to the rear (north) elevation and erection of fencing on top of an existing wall to overall height of 2.3m providing privacy to a patio area to the north of the site.

The application site is within a conservation area outside the centres as defined within the Island Development Plan.

Relevant History: None relevant to this application

Existing Use(s): Residential use class 1

Assessment: *(Tick as appropriate)*

no representation	☒	visual amenity acceptable	☒
accords with policy	☒	no material neighbour impact	☒

design acceptable	☒		

Policies considered most relevant:

GP4: Conservation areas

GP8: Design

GP9: Sustainable development

GP13: Householder development

Conclusion/Brief comment:

The erection of the fencing will enclose an existing patio area and will not be evident from outside of the site. Adjacent to the access into the car parking area the fence will provide additional privacy and acoustic benefits. The roof lanterns and flue will be seen from Rue Des Bergers, projecting above the boundary wall but the extension is of a high standard of design and will not impact on the conservation area.

The application is acceptable in relation to the above policies and other material planning considerations. All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
