Conclusion/Brief comment:

This application is to erect a raised terrace area at the rear of the property, install a flat roof rooflight over the kitchen area and infill a window on the west (rear) elevation.

Infilling the rear window and installing a rooflight are considered to be appropriate changes which would not affect the character of the area or impact on neighbour amenity.

The terrace will have a top section, 4m x 9.7m, which would be approximately 0.8m higher than the existing patio. There is then a lower section which is a similar ground level to the existing.

Due to the existing garden room and greenhouse running along the northeast boundary the opportunities to overlook the northeast neighbour are limited. However, due to the position of the proposed terrace, closer to the southwest boundary and the location of the neighbouring property, possible overlooking issues to the southwest are a concern.

The land naturally falls away from the southeast to the northwest, leaving each property with a sloping garden. The new terrace will give an outdoor ground level the same as the dwelling, which is an inclusive design choice. To mitigate concerns about any overlooking which could occur, the design includes a raised planter against the existing 1.8m timber fence which steps down with the land along the length of both the upper and lower terraces.

The existing fence and planting and the proposed raised planter is likely to mitigate the potential overlooking concerns to the southwest. Due to the orientation of the two properties the new raised planter is unlikely to cause any overshadowing to the southwest neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
