Conclusion/Brief comment:

This application is to demolish the existing shed and erect a replacement shed in the same location in the southeast corner of the site and to remove a section of wall either side of the existing vehicle access to widen it from 3m to 6m.

The rendered blockwork shed will remain the same size and be in the same location as the existing timber shed, which cannot be seen from public vantage points. The proposal will not have an adverse impact on the character of the area or to neighbour amenity.

The properties in Baugy Estate are all very individual, with very different front gardens and parking areas and all have different sized vehicle openings, from 3m up to 7.5m. Therefore, there are no issues with the occupiers of Hunters Rest enlarging the vehicle opening serving this dwelling. The majority of the front boundary wall will remain and the existing pillars are to be rebuilt either side of the new opening, giving the same appearance as the existing in keeping with the local built environment.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
