OFFICER'S REPORT

Brief Description of the site:

Saints Cottage is a detached dwelling situated to the east of Icart Road. The application site comprises a protected building and is situated in a Conservation Area as defined in the Island Development Plan.

Planning permission is sought to remove the existing pantiles on the north-west section of the roof and to install replacement tiles. As set out in the applicant's letter of 8th March 2022, it is intended to re-roof the section of roof (over a study and bathroom) with existing salvageable tiles and/or reclaimed pantiles in order to match as closely as possible to the remainder section of roof on the northern side of the building. Full details of replacement tiles have not been specified as part of this application.

Conclusion/Brief comment:

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected buildings, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved. This duty is reflected in GP5 of the IDP.

Under Section 38 of The Land Planning and Development (Guernsey) Law, 2005 the Authority has a duty to pay *“special attention to the desirability of preserving and enhancing the character and appearance”* of Conservation Areas. This duty is encapsulated in Policy GP4.

Whilst the existing tiles make a positive contribution to the special interest of the protected building and Conservation Area, the applicant has provided sufficient justification for the removal and which highlights the poor condition of the existing tiles and water ingress within the roof space.

It is considered a reasonable aspiration of the property owner (Policy GP5) to replace the existing tiles, where such replacement pantile makes an equal or enhanced contribution to the architectural interest of the protected building and the character and appearance of the Conservation Area. It is therefore recommended that an appropriate condition be attached to the decision requesting full details of the replacement tiles.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
