OFFICER'S REPORT

Brief Description of the site:

The property known as 'Windermere' is a mid-20th century semi-detached bungalow which is located behind the fringe development along the south side of Brock Road. The house faces east with the drive running along the east boundary and open fields beyond to the east. The other semi is to the south (with a third detached house beyond). The three houses have rear gardens which have high boundary walls to the north and west. However, located at a higher level, immediately to the west is a three storey block of flats and to the north beyond the high granite wall are the small two storey houses which make up the fringe development along Brock Road. The property is located in the St Sampson Main Centre Outer Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to erect a 1.2m high fence panel to the top of the high granite wall running along the west boundary.

From the rear garden of the property the agent advises that there is a sense of being overlooked from the block of flats to the west, the addition of the fence seeks to address the perception of being overlooked.

Due to the density of the surrounding built environment, the rear boundary wall of the property is not visible from any public vantage points and the installation of the additional fence panels will not affect the character of the area.

The additional fence panels will not impact on any of the neighbouring properties. The neighbours to the north will not be able to see the fence, The fence will protect the applicants privacy from the neighbours to the west, who are at a higher level and the neighbours to the south are also applying for additional fencing.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
