OFFICER'S REPORT

Brief Description of the site:

Liefde Ohana is a detached bungalow situated to the east of Rue Du Presbytere. A detached mono-pitch roof garage/outbuilding is situated to the south of the dwelling and forward of the front/west elevation of the dwelling. Rue Du Presbytere is a hill sloping down from the church and cemetery to the south down to the crossroads with L'Aumone at the north.

Properties to the west of Rue Du Presbytere are single-storey pitched and hipped roof bungalows. A pitched roof bungalow, Highfield, is situated to the north of the application site with one south facing window overlooking the immediate rear garden area of the application site which at the time of the site visit had curtains drawn. This is a secondary window to the room as a west facing window also serves this accommodation. To the north of this adjoining dwelling is a large, two-storey detached dwelling with its principal elevation facing north. To the south of the site is the Castel Church and cemetery.

The application seeks to vary the previously approved scheme (see Planning History below) and the amendments relate to the omission of the chimney stack and alterations to the approved fenestration, infilling a window and altering the front door in the south elevation and altering the proportions of two windows in the front/west elevation.

The site is located Outside of the Centres and within a Conservation Area and Archaeological Area as designated in the Island Development Plan.

Conclusion/Brief comment:

The application seeks amendments to the previously approved scheme and is not an opportunity to revisit the principle of the previously approved development. The application and assessment relates only to the amendments outlined above.

The proposed amendments represent a good standard of design that respect the local built environment and are in keeping with the approved development at Liefde Ohana. The proposed changes will not have a detrimental impact on the amenities of surrounding residential neighbours and will offer occupiers adequate natural light to the accommodation.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that planning permission is granted for the proposed amendments subject to conditions linking the application to the previously approved scheme.
