Conclusion/Brief comment:

This application is to demolish a section of wall south of the garden and erect gate to the east of the existing parking area.

The proposals are within the domestic curtilage and would bring an underused space (the wall prevents car doors being opened) into use either as part of the private amenity space for the occupiers of the dwelling or as a parking space.

Due to the modern architecture and the position of the development within the site, the proposals are not considered to affect the character and appearance of the conservation area.

The proposals are not considered to impact on the amenities enjoyed by the occupiers of surrounding dwellings.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
