Conclusion/Brief comment:

This application is to erect a single storey extension to the rear elevation, some alterations to the fenestration, to remove a hedge, widen existing and remove section of wall to create an additional vehicle access.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will the extension and alterations to fenestration have an adverse impact on either of the immediate neighbours.

The property has an existing vehicular entrance adjacent to the west site boundary, to be widened, and the proposal is to remove a section of wall on the east side of the roadside boundary so that the property has one entrance and one exit onto the busy road.

The property has an approximate 20m of roadside boundary wall, which is at an appropriate height (approx. 900mm) to allow for adequate sightlines in each direction. Two openings at 3.6m leaves over 12m of roadside wall, which will preserve the character of the area. In this instance and in this location it is considered reasonable for the property to have two vehicle accesses to operate as an in and out access, to ensure all vehicles leave the property facing forward, aiding highway safety.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
