Consultations:

Environmental Health

"I have reviewed the proposed plans to install lighting to signage on the north (front) elevation at Island Pizza, which were received by email on 5th May 2022.

I have concerns that the lighting may impact nearby residents if it is operated without restriction and therefore recommend the following condition:

- *The hours of operation for all exterior illuminated signage shall be limited each day (Monday – Sunday) to between 16:00 and 22:00 hours.*
- *The exterior illuminated signage shall be operated by a timer which is set to extinguish lighting at the permitted times. The timer will be changed to reflect when British Summer Time begins and ends.”*

Conclusion/Brief comment:

Although internally illuminated signage is not generally encouraged on the Island, in this case the scale and nature of the development and the commercial character of South Quay are such that it is not considered there would be any adverse visual impact.

Nor is it considered that the amenity of nearby neighbouring properties to the east and west would be affected, but without restriction there could be a possibility of light pollution. Therefore, to comply with Environmental Health’s advice a condition will be added to control the hours the sign is illuminated.

Due to the nature and type of development, it is not considered necessary for the applicant to demonstrate that the proposal has been designed to take into account the criteria of Policy GP9 (Sustainable Development).

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
