OFFICER'S REPORT

Brief Description of the site:

The property known as 'Becasse' was a detached 1970's bungalow which is now a one and a half storey dwelling that is set back from and has its gable end facing east onto Rue des Tielles; there are other detached neighbouring properties to the north, south and west and across the road to the east. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to erect a single storey flat roof extension, housing a garage and hobby room and reposition the oil tank to the east of the proposed elevation at the front of the dwelling.

The property is situated in a fairly rural area with earthbank and hedge boundary treatments between and to the front of the properties, giving privacy to each dwelling. The building line for each of the properties is very similar, but due to the

planting the building line is not read as a strong element of the street scene. The front boundary hedge is still quite young so a condition will be added to ensure it is able to grow and be able to help screen the proposals.

The proposals would break the existing building line by allowing development at the front of the property. However, the design of the garage and hobby room is single storey and would be clad in a composite material, which is natural looking and would help it blend in to the rural character of the area.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
