OFFICER'S REPORT

Brief Description of the site:

The property known as 'North Lynne' is a detached early 20th century bungalow which is set back from and faces north onto Route de la Foret. There are neighbouring properties to the west and across the road to the north, to the east and south is an open field. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This is a partially retrospective application to remove a 3m section of hedge within the site (the retrospective element) and to remove 1m of roadside boundary to enlarge the existing vehicular opening from 2.45m to 3.45m.

The 3m section of hedge already removed ran from the roadside boundary into the site for 3m, adjacent to the opening, it would have severely limited vehicles entering the site. It's removal does not alter the character of the area, nor impact on neighbour amenity, therefore the removal of this part of the hedge is considered acceptable.

Roadside boundaries are important features to the character of the area, especially traditional earthbanks and hedges. The site has a total front boundary of over 18m, predominantly made up of an earthbank fronted with dry stone granite with a hedge on top. Increasing the existing opening by 1m to 3.45m would still leave over 15m of roadside boundary which would limit the impact on the character of the area. The proposal would have no adverse effects on the character and appearance of the area and no adverse impact on neighbour amenity.

Due to the opening being already in existence and the fact there is plenty of room on site to turn around, the proposal to increase the width of the existing access would have no adverse impact on highway safety.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
