Conclusion/Brief comment:

This application is to extend and alter the existing garage at ground floor, turning the garage into a bedroom with ensuite, and erect a first floor level above to the northwest side elevation, adding another bedroom and ensuite.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation. Other properties in the clos have set a precedent by extending over the garage.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours. The southwest windows service bathrooms and so ought to be opaque glazing, although if not it is not considered an

issue as there is a certain amount of existing overlooking from the existing rear bedroom windows.

The front elevation will have a first floor window which overlooks the front parking area and clos, and due to the provision of existing mature boundary planting, the opportunities to overlook the neighbouring property is limited to an acceptable level, however, even without the planting there is limited opportunity for overlooking due to the orientation of the properties, creating oblique angles into the neighbours garden and the fact the gable wall of the neighbouring property having no windows. There will be no windows on the northwest elevation of the extension and overall the proposal is unlikely to have any significant adverse effects on the amenities of neighbouring residents.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
