OFFICER'S REPORT

Site Description:

The property known as China Red is located within a Main Centre Outer Area and within a Conservation Area as defined by the Island Development Plan. The area is generally characterised by a mix of use types.

Relevant History:

None germane to this application.

Existing Use(s):

Retail use class 11: food

Brief Description of Development:

Planning permission is requested for alterations to shopfront to front (north-east) elevation.

Relevant Policies of any Plan, Subject Plan or Local Planning Brief:

MC7 – Retail in Main Centre Outer Areas

GP4 – Conservation Areas

GP8 – Design

GP9 – Sustainable Development

Representations:

The Authority has received a letter of representation from one party objecting to the proposal. Grounds for objection principally relate to the following issues:-

- The actions of customers affecting the amenity of neighbouring residents, mainly via smoking in close proximity to a boundary wall.

Consultations:

None generated.

Summary of Issues:

- Whether the design of the development is acceptable.
- The impact of the development on the character and appearance of the Conservation Area.

- The impact of the development on neighbour amenity.

Assessment against:

- 1 - Purposes of the law.**
- 2 - Relevant policies of any Plan, Subject Plan or Local Planning Brief.**
- 3 - General material considerations set out in the General Provisions Ordinance.**
- 4 - Additional considerations (for protected trees, monuments, buildings and/or SSS's).**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposed alterations to the fenestration adopts a high standard of design for the purposes of Policy GP8 (Design) and would have a neutral effect on the character and appearance of the Conservation Area. The width of the replacement door is likely to improve the accessibility of customers using the building and therefore is encouraged.

The alterations to the fenestration would not adversely affect the amenities of neighbouring residents in terms of overlooking, overshadowing, or overbearingness. Despite the comments received in respect of the impact of customers smoking in close proximity to a neighbouring property, these concerns do not constitute a material planning consideration and therefore are not considered as part of this application. How the site is managed on a daily basis would be the responsibility of the landowner.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
